OUR MISSION

AMITY 46 envisions to be a catalyst in augmenting holistic development, cultivating a dynamic and engaging learning environment that motivates children to aspire, act and achieve. We believe that every child is potentially the beacon of divine light and has the capacity to transform society and uplift mankind.

OUR VISION

- To cherish and nurture our students with utmost care
- To foster a culture of empathy, kindness, and respect towards nurturing relationships that uplift and inspire
- To embrace innovation and adaptability
- To cultivate the strong sense of identity and purpose
- To build strong partnerships with families, communities and organizations
- To instill in the students the ability to cope with situations with grit and determination
- To encourage students to achieve and aspire for success
- To imbibe in the students an understanding of exemplary behaviour, the value of hard work, a positive attitude, a strong sense of ambition and faith in God as stated in the BHAAG formula propounded by our respected Founder President, Dr. Ashok K. Chauhan

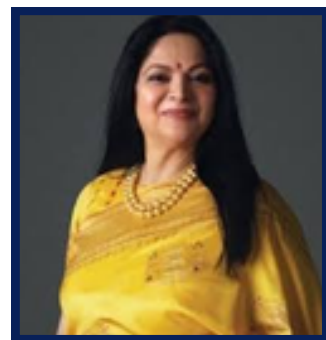

Where Modernity Blends With Tradition

CHAIRPERSON'S MESSAGE

Dear students,

“Act with purpose, courage, confidence, competence and intelligence until these qualities 'lock in' to your subconscious mind.”- BRIAN TRACY

As we navigate the complexities of the 21st century, it is clear that Science, Technology, Engineering, and Mathematics (STEM) education is the foundation upon which our future will be built. At Amity, we're committed to empowering our students with the knowledge, skills, and competencies that will enable them to succeed in an ever-changing world.

STEM education is not just about academics; it's about developing critical thinking, problem-solving, creativity, and collaboration skills that are essential for tackling real-world challenges. By integrating STEM into our curriculum, we're equipping our students with the tools they need to innovate, adapt, and thrive. We also recognize the importance of life skills, such as communication, empathy, resilience, and time management, that are vital for personal and professional success.

It has been our earnest endeavour to provide a holistic education that prepares our students for success in all aspects of life and empowers them to make a positive impact in the world.

I encourage my students to embrace the opportunities and exposure given to them in different fields to expand their mental horizon. Wide exposure can help them develop the skills and emotional intelligence, which is crucial for building strong relationships, managing stress, and attaining personal and professional growth.

Classroom learning is essential, but practical application and real-world experience help students retain information better and understand its relevance. It can stimulate creativity and innovation, enabling students to think outside the box and develop unique solutions.

Therefore, dear students, make the most of the resources and opportunities available to you in school, and don't hesitate to seek guidance from your parents. Their wisdom, combined with the skills you acquire, will help you grow into a confident individual.

Let's work together to build a brighter future, one that's driven by curiosity, creativity, and a passion for learning.

With blessings

Dr. (Ms.) Amita Chauhan
Chairperson

Our Sports Champions Won Over all Trophy and Flag in 11th Inter Amity Sports Felicitation Ceremony

The 11th Inter Amity Sports Felicitation Ceremony was held with grandeur and enthusiasm at AIS, Noida on 16th May 2025. The event celebrated the athletic achievements of students from various branches of Amity schools who showcased excellence in diverse sporting disciplines throughout the year. The ceremony commenced with a warm welcome by the principal of AIS, Noida, Dr. (Mrs.) Amita Chauhan, Chairperson of the Amity Group of Schools and RBEF, graced the occasion and delivered an inspiring address, encouraging young athletes to continue striving for excellence with passion and dedication.

Medals, trophies, and certificates were awarded to the top performers in sports such as athletics, basketball, football, cricket, skating, Kho kho, taekwondo, Archery and martial arts. The highlight of the event was the felicitation of the Overall champion Trophy and Flag which was won by our school and Junior trophy and flag was also won by our school shared with AIS V6. Principal Dr. Arti Chopra expressed immense pride in the students' accomplishments and congratulated them for their consistent and remarkable efforts.

PRINCIPAL'S MESSAGE

Preparing students for future

Dear Readers,

Education is the passport to the future, for tomorrow belongs to those who prepare for it today.” —Malcolm X

Rightly said, students must be prepared with an adequate skill set 'today' to meet the challenges of 'tomorrow'. Curriculum at Amity integrates techniques for communication through listening, speaking, reading & writing practices, critical thinking by incorporating higher order thinking questioning techniques, collaboration for innovative problem solving, digital skills by teaching tools of technology like video making, adaptability by instilling a passion to change surrounding for overall well-being and becoming agents of change etc .

Goal setting, time management, self-awareness, resilience etc. are some of the life skills essentially integrated with curriculum. There are no silos between curricular and co curricular segments and interdisciplinary learning is being practised . Art and sports integration is making curriculum interesting and joyful. Formative assessments conducted through rubrics for quizzes, debates, role plays, dramatics, musicals, business plans and posters/collages made.

The school creates an environment of empathy, peace, mutual respect and cooperation . Differentiated teaching methods, service learning projects, peer mentorship help in attaining the objective. Days of gratitude are celebrated wherein children express gratitude for the school support staff & helpers . Senior school takes up social outreach projects like 'Drishti' for awareness for visually impaired, and 'Umeed' to bring generosity for dyslexic children. Modifications in curriculum for CWSN as per CBSE's policy and intervention of Special educators, School counselor and Wellness in charges is a regular practice as per requirement.

Technology is integrated with the use of innovative teaching methods like flip learning, language Accelerators, accessibility tools and apps for video making , survey etc . AI enhanced learning has opened up new paradigms both for teachers & students. Tech research-based projects are enjoyed by students , increasing their overall accountability and responsibility towards the nation.

To create a more conducive learning environment, the school body reiterates its unconditional love for students , though making certain disciplinary norms and practices mandatory. They are taught not to be afraid of failures as it is the stepping stone to success. Peer teaching and student mentorship through alumni or members of community creates good environment.

As per the guidelines of NEP'2020, learning is made multidisciplinary in nature and many lessons are converted into Problem based learning, to enhance student engagement and retention . Skill based learning like Financial Literacy is taught right from Grade VI itself and Vocational education made mandatory too. Student Clubs and Societies are made at different age levels to encourage life skills e self management and reflective practices . All these and sports, ACC, Scouts & Guides, students engaged and motivated in their studies

As mandated by CBSE , 50 hours of professional development of teachers through training programs, both in-house and outside school is practiced religiously. Teachers are provided opportunities to upgrade their skills. Equal emphasis is given on enhancement of emotional and social skills too , apart from cognitive development. Parent engagement calendar is shared during Orientation sessions to keep them happily associated with school community.

Students are given opportunities to take part in interschool , district, state, and national level tournaments and win accolades. Senior Secondary students take up internship opportunities with industries during their summer break to get first hand experience. As they are prepared to meet challenges of real life through life skills acquired. Soft skills taught and 21st century learning methods woven with the curriculum, the school's environment with the blessings of honorable Chairperson Dr Mrs Amita Chauhan, is enabling them to be Changemakers for tomorrow.

Happy Reading

Dr. (Ms.) Arti Chopra

Spotlight on Sports Achievers

OVERALL 1st Runner-up in National Yoga Championship held at Siri fort Sports Complex

Girls age group (Under 8)

Aashvi Singh 3A 1st position, Maira Moond 2nd position, Shivya Singh 3C 3rd position

Girls age group (9-10)

Sudeeksha Nanubala 5C 1st position, Eeha Singh 5D 2nd position, Sahira Vinayak 5J 2nd position

Boys age group (9-10)

Devansh Parmar 5J -1st position

Girls age group (11-12)

Amaira Sharma 6B- 2nd position, Medhavi Gattani 7A- 2nd position, Anvita Gaur 7I- 3rd position

Girls age group (13 - 14)

Aashna Bhalla 9A -1st position and selected for the Nationals
Maitreya Sharma 9 - 2nd position

Advance category

Girls age group (9-10)

Manishka teotia 5I 1st position

Girls age group (11 - 12)

Mananya Sharma 8B-3rd position, Amaira Sharma 6B-3rd position

Girls age group (13-15)

Unnati Pradhan 9J- 1st position, Aaditri Animesh 9H- 1st position

Girls Age Group (15-17)

Aarna Pahuja 9F- 3rd Position

Overall 2nd Runner-up in Inter School Basketball Championship Held at Delhi Public School , Gurgaon

Siddhant Dagar 10 G, Samridh Dagar 10 D, Shubhum 10 D, Pulkit 10 D, Nirbhay Bajaj 9I
Soham Sadha 10 G, Agrim 9B, Anvay 9I, Arnew Misra 9D and Aarin 9J

Haryana State Kickboxing Held at Haryana State Sports Complex Indoor Stadium, Faridabad

1 Gold in Event PF036 YC F under weight category 42 kg.
1 Silver medal in event 03KL 218 YC F under weight category 42 kg
Lavanya Class 7 G

Our team is selected for Nationals.

Our Gymnasts Shine at District-Level CGA GYMNASTICS CHAMPIONSHIP

Mahika Sharma (2-H) clinched two gold medals.
Tanvi Aggarwal (6) secured a bronze medal.

Our Grandmasters Won Over all 2nd Runner -UP Position in Inter Amity Chess Championship Held at AIS, Mayur Vihar

Winners from Sub Junior Boys team

Avyan Thakkar (3 I)
Raeyansh Garg (4 I)
Samarth Shukla (5 D) and Avyan Jain (5 F) bagged the Bronze Medal

Following from Sub Junior Girls team earned Bronze Medal.

Mishka Arora (5 B)
Padmaja A.G (5 E)
Amyra Srivastava (5 Sync)
Ridam Kaur (5 B)

Laurels in Skating Hockey Premier League (SHPL) 2025

Winners

Naira Chabra- (4D), Vyan chawla- (4D), Aditya Dhiman- (11G), Bhavesh Dagar- (12 H) Gold
Nattansh Chawla- (8A), Yashasvi Aggarwal- (10 H) Silver

Congratulations to our winners !!!

Abhay Bailey Shines Bright in INSPIRE-MANAK 2024-25 with Innovative AI Project

Abhay Bailey OF class XI A has been awarded the prestigious INSPIRE-MANAK Grant for the year 2024-25. This flagship scheme, under the Innovation in Science Pursuit for Inspired Research (INSPIRE) programme of the Department of Science & Technology (DST), Government of India, is implemented in collaboration with the National Innovation Foundation (NIF) to ignite scientific temperament among students of Classes 6 to 10 across India.

Abhay's innovative project, Rakshak-AI—an Artificial Intelligence-based threat detection system—was selected for its strong technical feasibility and social relevance. He received a state-level grant of ₹10,000 under the Haryana State Innovation Scheme. His project is now eligible for further participation at prestigious forums such as the District, State, and National Level Exhibitions and Project Competitions (DLEPC, SLEPC, NLEPC).

Outstanding Achievements in Unified International Olympiads

Zuhaan Akbar Sofi, a student of Grade III demonstrated exceptional brilliance and dedication, securing top ranks in two prestigious national-level competitions. He secured All India Rank 1 in NSTSE (National Science Talent Search Examination) and was awarded a medal, certificate and a laptop. In Unified Cyber Olympiad, he got AIR 2 and received a medal, certificate and prize cheque of INR 10,000. His hard work and commitment towards academic excellence are truly commendable.

Outstanding Achievements in Unified International Olympiads

In the Unified International Olympiads, our students have performed outstandingly well and brought great honour to the school at the national level. Adwaita, a student of Grade 7, has secured the National Rank 1 in the Unified International English Olympiad (UIEO), demonstrating remarkable proficiency in the English language and analytical skills. In recognition of his outstanding achievement, the Unified Council awarded him a medal, certificate, and a laptop. Sanskar, a student of Grade 9, has achieved National Rank 2 in the Unified International Math Olympiad (UIMO) and he was presented with a medal, certificate, and a Tablet PC. The school wishes them continued success in all their future endeavours.

Zonal Level Acclaim in Vidyarthi Vigyan Manthan

Namish Durgapal of class 9 has secured the 2nd position at the zonal level in the Vidyarthi Vigyan Manthan (VVM) which was held at IIT Kanpur. He was felicitated in presence of eminent dignitaries.

Felicitations of The Meritorious Students and their Mentors A Proud Moment for The School

On 27th May, the felicitation ceremony of the meritorious students and their mentors was a moment of immense pride for the school. With the gracious presence of Dr. Ashok K. Chauhan Founder President of the Amity Universe and Dr. (Ms.) Amita Chauhan, Chairperson Amity Group of Schools, the event was truly unforgettable for all the toppers and their dedicated teachers, the event was a dream come true, marking a truly triumphant day fulfilling long-held aspirations of XII and X for their stupendous performance in the board exams. All the students who got the perfect score of 100 in various subjects were awarded gold medals and certificates, while the school toppers were awarded trophies, gold medals and certificates.

Founder President, Dr. Ashok K. Chauhan addressed the gathering and shared a few pearls of wisdom. Dr. Atul Chauhan, Hon'ble Chancellor, Amity University, in his inspirational address reminded everyone to remember that even if one succeeds in life, one needs to be humble in nature, always respect parents who encouraged their children to taste success. Guest of Honour, Shri Jagdish Rajesh ADC/Assistant Director General (Administration) ICMR was full of appreciation for the yeoman work being done by the Amity Group of schools. Teachers too were awarded with appreciation letters in recognition of their hard work and contribution to the overall results.

NEP-CBP Workshop

A workshop titled 'Transforming Schools Through Teaching Excellence' was conducted by the Principal, Dr. Arti Chopra on 2 August, for the teaching staff of the school. The exhaustive workshop aimed at introducing better pedagogical strategies and to create smart goals and practices in the field. The workshop, aligning with the CBSE guidelines about in-house teacher's training, laid stress on the need for innovation in education and the development of experiential learning practices in classrooms. The session emphasised on a need for a paradigm shift from engaging students to empowering students in the learning process.

Workshop on Time Management

On 16 July 2025, the Principal Dr. Arti Chopra, conducted an insightful session on Time Management for Class X students. The session aimed to help students reflect on their time usage, recognize common distractions, and adopt effective time management strategies. Students shared their struggles with time management and participated in a self-survey to identify areas where they tend to waste time. The session was highly informative and interactive, equipping students with essential time management skills like Pomodoro Technique, Pareto Analysis, Kanban and Pickle Jar Theory.

Hands-On STEM Learning for Educators: Expert Session

Principal Dr. (Mrs.) Arti Chopra, hosted an Expert-Led STEM DLD session on July 11, 2025, as part of the CBSE initiative to promote experiential and interdisciplinary learning. The session was conducted by Dr. Archana Sharma, Principal Staff Scientist at CERN, Geneva, Senior Advisor–International Relations at CERN, and Founder of the LifeLab Foundation. The theme of the session was “STEM Hands-on, Practical Learning,” focusing on making science education engaging and futuristic.

The event witnessed participation from 39 educators across various reputed schools in Gurugram, from multiple disciplines—Physics, Chemistry, Biology, and Mathematics—who actively took part in the session. Dr. Archana Sharma captivated the participants with her dynamic approach, drawing from her vast experience at CERN. She emphasized the importance of integrating multiple sciences to spark curiosity and foster innovation among students.

The atmosphere during the session was vibrant and intellectually stimulating. Participants expressed their appreciation for the engaging format and the relevance of the discussions to current classroom practices. The participants extended heartfelt gratitude to visionary Chairperson, Dr. (Mrs.) Amita Chauhan, whose constant support and commitment to holistic education made this enriching opportunity possible.

Workshop For Parents on National Curriculum Framework

On 19th of July, Principal Dr. Arti Chopra led an insightful workshop for parents, on the National Curriculum Framework (NCF), focusing on key aspects to enhance teaching-learning practices. The workshop covered crucial topics that aimed to transform the educational experience for students. Effective teaching strategies for the middle stage were discussed, highlighting the importance of engaging students during this critical phase. Additionally, strategies for detoxification from gadgets were explored, emphasizing the need to promote healthy technology use and minimize distractions.

The workshop also delved into pedagogy for the secondary stage, focusing on approaches to engage and challenge students in higher grades. Furthermore, the purpose and key principles of assessment were examined, underscoring the role of assessment in learning and its essential principles. The shift towards competency-based education was also emphasized, moving away from rote learning and towards developing skills and competencies. The workshop provided valuable insights and practical takeaways for educators, aligning with the NCF's vision for student-centered and holistic learning.

Our Students Participated in first International Space Settlement Design Competition

Venturing Into Venus: VO1

Nine Students from our school represented India at the International Space Settlement Design Competition held at Kennedy Space Centre, Florida, USA. Our team comprised of Suhani Gupta (11A), Vanya Saluja (11A), Abhay Bailey (11A), Jai Dugal (11B), Soham Mukherjee (11B), Harshprit Kaur (12F), Ishani Verma (11D), Jashraaj Sahoo (12D) and Prabjot Singh (10H).

The students along with their mentors Ms. Sangeeta Malhotra and Ms. Sunmeet Kaur reached Florida on the 24th of July. The event officially started on the 26th of July in the Kennedy Space Centre, with an opening ceremony featuring insightful talks on pitching by Mr John Bates, organisational tools and resources and other addresses.

Our school was a part of the company, "Flectel Constructors". Teams set out to understand the proposal, design the rough draft and started formulating the presentation.

This 4-day competition was an industry simulation of how different companies design a futuristic settlement on another planet or around it. It was a long journey from the qualifying round to later Indian Nationals, Asian Regionals and finally, the International Round. This was the first time the school had qualified for the International Round through an International Resubmission proposal, by designing a settlement in Mars Orbit.

Our team worked with students from the United Kingdom, China (Tsinghua International School and other schools), Mexico (Politecnico University), Kolkata (La Martiniere for Boys), Romania (Avram Iancu Theoretical Highschool) and Italy in various different departments such as Structures, Critical Infrastructure, Human Factors, Mission Systems and Business Planning, covering all the different aspects required to create a cohesive settlement.

The students expressed their gratitude to esteemed Chairperson Dr. (Ms.) Amita Chauhan for providing them with such transformative learning experiences to pursue their goals purposefully.

16th Annual Intra-school Model United Nations Conference Empowering Young Leaders

With the blessings of our esteemed Chairperson, Dr. (Mrs.) Amita Chauhan and under the guidance of Principal Dr. Arti Chopra, 16th Annual Intraschool Model United Nations Conference was conducted from 23rd July to 25th July. Students from Classes VI to XII took part in this prestigious event, which has grown into one of the most awaited academic platforms within the school.

The committees and their agendas this year were diverse including United Nations General Assembly (UNGA): Deliberating upon the increasing threat of nuclear proliferation, United Nations Human Rights Council (UNHRC): Addressing war crimes and gender-based rights violations in ongoing armed conflicts, World Trade Organization (WTO): Evaluating the global impact of protectionist trade policies in the post-Trump era, Lok Sabha: Engaging with the complexities of the reservation policy, with special emphasis on the Mandal Commission, NITI Aayog: A newly introduced committee—specially crafted for middle school participants—deliberated on the delimitation exercise and the North-South divide, United Nations Office for Outer Space Affairs (UNOOSA): Formulating a global planetary defence protocol against asteroid threats and strategizing countermeasures, Historical United Nations Security Council (HUNSC): Time-travelling back to 1979 to reassess the course of the Iranian Revolution, White House Security Room (WHSR): Classified—because some missions are too important to reveal, International Court of Justice (ICJ): Seeking an Advisory Opinion on the Obligations of States in respect of Climate Change—a topic of immense relevance and urgency.

Over 500 students participated in various capacities—as delegates, executive board members, press reporters, photographers, and members of the organizing team.

Summer Sports Camp

Summer Sports Camp was successfully organized from 19th May to 31st May 2025. The camp was a resounding success, proving to be a catalyst in unlocking sporting prowess among the children. A total of 121 students enthusiastically participated in the camp. The sports offered during the program included: Cricket, Football, Basketball, Swimming, Chess, Badminton. Each sport was conducted under the supervision of experienced coaches, ensuring a safe and engaging environment for all participants. The students not only improved their skills but also learned valuable lessons in discipline, teamwork, and perseverance. The camp concluded on a positive note with students expressing great enthusiasm and satisfaction. Parents also appreciated the initiative for keeping children active and engaged during the summer break.

Etiquette Workshop for Grade X Students

An Etiquette Workshop “Power of Presence, Leadership, and Impression Management” was conducted for Grade X students on 18th July 2025. The workshop was conducted by Dr. Eeshani Sarswat, Head of Institution and Deputy Director at Amity Finishing School. The session allowed students to reflect on their behaviour patterns and identify areas for improvement.

The workshop was a valuable initiative under the school’s ongoing efforts to promote holistic development and personality enhancement among its students.

RHYTHMIC RAAGA – The Inter-school Music and Dance Fest

With the blessings of our Honourable Chairperson, Dr. (Mrs.) Amita Chauhan, and as part of our ongoing commitment to providing diverse platforms for holistic development, we proudly organized Rhythmic Raaga – Inter School Music and Dance Fest on 28th July 2025. Eighteen reputed schools from Gurgaon and the Delhi-NCR region enthusiastically participated across six categories. The event was conducted in two stages: the initial screening round, where participants submitted video entries, followed by the final offline competition held on 28th July 2025 in the school campus. The distinguished panel of judges, all experts from the fields of music and dance, acknowledged the dedicated efforts of the teachers who mentored and groomed the students so effectively. Amity International School, Noida, was declared the overall winner, marking a memorable culmination of this grand celebration of talent and artistry.

Our Students Lifted Over All Champion's Trophy in Ignited Spirits – 2025

Two day Inter Amity theatre competition held at AIS , Pushp Vihar was significant opportunity for theatre enthusiasts to demonstrate their development and prowess in this field. On 21st July, 2025 our junior team exhibited its theatrical proficiency by winning the first position and the team included Ria Sharma -8D,Aanya Jain-8A,Pranshul Agarwal-8H,Anvita Srivastava-8D, Aarav Sharma-8A, Aaryan Agarwal - 8B , Asmita Sajeendran- 8B and Ishi Saxena -7C. Anvita Srivastava won the Best Actor Award.

On 22nd July this competition invited the senior teams . Our senior team also won the first position and were given away overall winners trophy. The senior team was inclusive of Angel Dua- XI J, Sanavi Sood-XI J , Aarav Kumar- XI J, Kashvi Sharma- XI B, Saesha Mathur – XI B, Abhay Bailey- XI A, Eva Mohil- XIE and Mohd Arsh of XI E. Winning this coveted position in 'Ignited Spirits' brought a sense of pride and accomplishment to the students and their mentors. It was a great learning experience for the students to use this platform to voice out their concerns on some important social issues. Principal Dr. Arti Chopra congratulated both the teams for their incredible achievement and motivated them to work hard and give their best.

Alumni Connect

An engaging interactive session was held with alumni who had successfully cleared the JEE examination and are now pursuing their studies at prestigious institutions. The session provided aspirants with first-hand insights into effective preparation strategies. **Chinmay Tuteja** – IIT Delhi, ECN (Engineering & Computational Mechanics), **Aniruddh Tiwari** – Commercial Pilot, Indigo Cadet Programme, **Krishang Vyas** – IIT Guwahati, B.Tech, **Saksham Garg** – LNMIIT Jaipur, B.Tech, **Saksham Kundu** – IIT Mandi, CSE B.Tech during the session, the alumni shared their personal experiences with JEE preparation, highlighting the importance of maintaining consistency and self-discipline throughout the journey. They stressed the need to balance school academics and JEE preparation, manage time effectively, and combine coaching support with focused self-study.

A key message conveyed was the value of attending school regularly, which not only helps maintain academic continuity but also allows students to benefit from the ongoing support and guidance of school teachers. They also expressed their warm gratitude to esteemed chairperson Dr. (Mrs.) Amita Chauhan for her motivation.

Rainy Bugs Bash

The students of Grade I and II celebrated 'Rainy Bug Bash', a vibrant and educational event from 14 July to 18 July 2025. Exploring the fascinating world of rainy season insects the students participated in a series of activities like puzzles & riddles, rainy season insects' exhibition, fun-filled photo session with a theme-based photo frame and insect-themed art & craft activities. A special Conversation Corner was set up where students shared their personal experiences and learnings from the week. The Rainy Bug Bash week was a delightful blend of fun and learning. The event was truly a celebration of nature, knowledge, and the joy of discovery.

Chitrankan – The Inter School Art Fest 2025

The school hosted the 9th edition of 'Chitrankan – The Inter School Art Fest' on 15th July 2025 in which 31 schools across Delhi and the NCR region participated. This year the students competed in various unique art competitions, namely Stamp Design, Mix Media Relief, Folk Lore, Tunnel Craft, Sculpted Pots, Poster Design, Round Sculpture and Ad Making. The event concluded with a prize distribution ceremony, celebrating the exceptional talent on display. Amity International School, Noida, was declared the winner of the Overall Championship Trophy. The event stood as a testament to Amity's commitment to nurturing artistic talent and encouraging students to reach for new heights through creativity and innovation.

Amity French Olympiad 2024-25

The Amity French Olympiad conducted by AISG 46 took place in the school premises. Six schools with a total of 102 students appeared for the Olympiad. The students were tested on their knowledge on Reading, Vocabulary, Expressions and Grammar as well as culture and civilization.

The overall experience for the students as well as the teachers was very enriching for the eighth consecutive year of this event and the students gained valuable experience and knowledge. Four gold medals, two silver medals and five bronze medals were bagged by AISG46, three gold, four silver and one bronze were bagged by AIS Noida, one silver and one bronze medal was bagged by AISG43, one silver and one bronze by AIS PV. The overall trophy for Class IX was bagged by AIS Noida and for Class X was bagged by AISG 46.

POETIC EXPRESSIONS

The Chosen Families

Families are not just the ones shared by blood

No, that's not true.

Families are also the ones,

With which we grew.

Our life is a tree

Let it sprawl its branches

Each twig a story

In love it dances

Our life is an orchid

Full of roses, tulips, lotuses and lilies

We can make our world a happy cocoon

Savouring moments with our chosen families.

Mahima Gupta, XII- C

CHOCOLATE

Cherish it

Hot in a cup

Or

Cold in a cone

One or more

Light or dark

Always

Tastes great

Enjoy it a lot!

Ayana Nehra, IV- A

The Magic of a Smile

A smile can travel far and wide,
Across the world, from side to side.

It doesn't cost a single cent,
But shows the love that's truly meant.

It brightens faces dull and tired,
Ignites a spark when we've retired.
It lifts the heart, it calms the fear,
A smile says, "I am glad you're here."

In silence, it can speak so loud,
Make one feel seen within a crowd.
No need for wealth, no need for fame,
A smile alone can change the game.

So wear a smile, both kind and true,
It makes the world much brighter too.
Each smile you give, each one you share,
Puts hope and joy back in the air.

Akshat Kuda, IV- D

NIGHT'S BEAUTY

A velvet sky in deep embrace,
Silver stars shine with gentle grace.

Moonlight dances on the sea,
A silent song of mystery.

The whispering wind hums soft and low,
Guiding dreams where moonbeams glow.

Shadows weave a peaceful sight,
Bathing earth in tranquil light.

Softest hush, the world in sleep,
Secrets in the darkness keep.

Oh, night so vast, so full of art,
A quiet wonder warms the heart.

Gitisha Mehta, VIII- H

POETIC EXPRESSIONS

Words

Words are silver
Words are gold,
Words are diamond
Words are bold.
Words can change
You and me,
Words can gain
Sympathy.
Words are strange
Words are pain,
Words can change
A man's vain.
Words can make a legacy,
Words can break a tragedy!

Avleen Kaur, X - F

My Tree

I am a Tree, I am a Tree,
Tell me who is bigger than me?
I love you,
Do you love me?
I will give you
Fruits for free.
Our Friendship will never end
I am your best friend !

Yuvansh Dhawariya, II- A

Are you happy?

Having a roof over your head,
Shoes that assist while you tread.
Clothes of decent quality,
As well as food of reasonable viscosity.

Friends to bring mirth and make a memory,
Parents and Teachers to guide through fact and
allegory.

Doctors and nurses to treat,
Education which makes you complete.

Habitation powered by electricity,
Respect that maintains your sanity.
What is the need to act classy,
When you have everything to make you happy...

Akshita Gupta , XII - E

Solar System

The Solar System is bright, because of sunlight.

Mercury is too small

Venus is too hot

Earth in the Goldilocks zone

Mars little cold

Now, Jupiter is here

It's like a big bear

Saturn with rings

Here the cold part begins

It's Uranus's side

Now Neptune, Can you make a tune?

Namandeep Singh, III- C

POETIC EXPRESSIONS

I am Thinking, Therefore I am

I think, therefore I am.

The power of a single thought,
holds the battles of the mind each fought.

To question is to think, to think is to exist.

Each thought grows stronger,
finding haven in the midst of doubt.

I think, therefore I am.

The deceived believes, the doubter thinks.

To be fooled, to have believed,
That one must exist, to walk or talk.

Or so we say, so we are taught.

A single thought may prove it wrong.

I think, therefore I am. Or am I?

To have thought, is to only believe to have.

To be thinking, is to know of my existence.

The past may defy the truth; The present defines
it.

René Descartes' cogito, a subtle mistranslation.

I am thinking, therefore I am.

Alisha Singh , VIII- G

A cup of coffee

We love the shine, the gleam, the glow,
the surface parts that people show.

A perfect smile. A flawless face.
The polished charm, the easy grace.

We love what's easy to love,
what shines in the light,
the smooth, the perfect, the bright.

But beneath the glow,
where truth takes its place,
here lies the side of the soul
we're too scared to face.

The cracks, the flaws inside.
The tears we've cried the parts we hide.

We love the mask, the outer shell,
the stories pretty faces tell.

The awkward moments, the dreams that fell,
the fears they carry but never tell.

We hold onto the beauty,
the parts that seem right,
and leave the raw self alone to the night.

Maybe we're too scared
of what is unrefined,
the chaos, the cracks, the doubts in the mind.

So we stay on the surface,
too afraid to explore
and call it love,
but it could be so much more.

Perhaps
we're too afraid to love
what's real, the chaos, the pain we feel.

We settle for the surface,
safe and confined
and never dare to love
the whole of a mind.

Shailja Gauniyal, XI- A

CREATIVE EXPRESSIONS

Some Interesting Questions

1. Why did the student eat his homework?

Ans: Because the teacher said it was a piece of cake!

2. Why did the banana go to the doctor?

Ans: Because it wasn't peeled well.

3. Why did the math book look sad?

Ans: Because it had too many problems.

4. Why don't eggs tell jokes?

Ans: Because they'd crack each other up!

5. What do you call a sleeping bull?

Ans: A bulldozer

Akshit, IV- I

RIDDLES

A Day out at Kidzania

I went to KidZania with my family in the month of May 2025. It's a fun city for kids. We need to earn Kidzoz to Spend them on fun activities. First, I gave a cheque in the bank and got 50 Kidzoz. First, I played a role play of a firefighter. Sat down in a firetruck and spray water. It was a lot of fun. Then I went to Aviation Academy by Air India. There I learnt how pilots fly an airplane. After that I went to Frooti factory. There I learnt how to make Frooti, what are the machines and ingredients used in Frooti making. Then I went to the dentist's role play. There the person explained the importance of keeping our teeth clean and healthy. I also did a cavity filling procedure. After that I went to DHL courier, where I became a courier boy. I delivered a few parcels to some shops in KidZania city. Then it was time to eat at the bakery. There I decorated my bread sliced smiley with peanut butter, bananas and chocolate syrup. It was so tasty! From there I went to driving school. I learnt how to drive the car and got my license. After that I went to the driving track and tried riding the bike. But my bike was bumping again. Then I went to an ice candy and Parle biscuits factory, where I learnt to make Candy and biscuits. Finally it was time for some dessert. So, I went to MOD. There I decorated the doughnut with some melted chocolate, colourful gems and syrup. The doughnut was very delicious! I enjoyed it a lot!

Trip to Jaipur

I went to Pink City, Jaipur in my summer holidays. On the way I saw Monkey Temple and Hanuman ji temple. In the evening, we went to a famous local market. From there Mumma bought a dress for me. The next morning, I went swimming in the hotel. After getting ready, I went to see Hawa Mahal, Amber Fort and Jal Mahal. I also ate delicious food and a variety of desserts. My first experience on the ropeway and camel ride was a lot of fun.

Old Suitcase in Attic Leads to Future

Today I thought that I should clean my attic, so, I climbed the rickety wooden stairs to the attic and found it to be dark and dusty. As I started cleaning and arranging things, I found an old suitcase lying in the corner. It wasn't covered in dust and looked almost new. I was curious to know why it wasn't covered in dust even though the attic wasn't cleaned for months. So, I opened the suitcase to see if there was anything inside, but to my dismay there was only a note inside which said "Use the spell which is hidden somewhere in the house and speak it loudly and clearly and you will find yourself in the future. Don't worry you will come back to present when you speak the same spell again."

I was initially clueless and wasn't serious about the note. But my great-great grandfather's name and signature below the note took my attention and. I started searching for the spell everywhere in the house. After few hours, I started feeling tired when I finished checking almost the entire house except my grandfather's room and couldn't find the spell. Still I didn't lose my hope and I went inside my grandfather's room. To my surprise, I found the spell hidden inside a very old book in the cupboard. With all my excitement, I rushed to the attic. and I stood before the suitcase. As per the instructions, I uttered the spell very clearly and loudly. Suddenly, I started feeling dizzy and everything turned black around me. When I opened my eyes, I found myself in a different place. I started wandering and exploring the new city, and as night fell over, the city was filled with beautiful lights. On my return, I found a strange woman, talking to me as if she was my friend. She invited me to her house for dinner and it was delicious. Then she told me to be ready by 7am the next morning. I was surprised and I asked her where we were going. She looked as if she was taken aback by my question and reminded me that we were supposed to go to office for an urgent meeting. I realised that I wasn't a teenager anymore and I need to work in the office. When I reached the office, I was amazed to see the magnificent architecture of the office building and the workplace layout, but I didn't show it on my face as my friend could have thought that I was stupid. Working on various reports and presentations for around seven hours in the office was quite tiring for me that day. So, after I finished my work, I left early to explore the beach near my office. The sunset was so beautiful that I didn't want to leave the beach, but I wanted to return to my present. So, after spending some time at the beach, I spoke the spell again and I returned to the present taking all my future memories with me.

CREATIVE EXPRESSIONS

Mary on a Cross

In the shadows of the playground, where laughter fades to gray,
An introvert stands silent, as the world just drifts away.
Fake friends like fleeting whispers, left scars upon the heart,
In the solitude of silence, where loneliness imparts.

Through the corridors of childhood, with a heavy heart to bear,
Two true friends stood beside me, in a world that didn't care.
Thoughts of darkness lingered, like a storm that wouldn't cease,
In the quiet of the night, seeking solace, seeking peace.

Days turned into endless nights, with tears that never dried,
Whispers of despair and pain, as hope began to slide.
Each fake smile a dagger, each laugh a hidden tear,
The silent screams of suffering, only true friends could hear.

Then came the sixth grade's dawning, a glimmer of hope was found,
New friends emerged from shadows, lifting spirits from the ground.
Though the journey was a struggle, through the valleys of despair,
The strength to carry on was found, in the love that others share.

Yet even in the moments bright, the memories still sting,
Of days where every step I took felt like a shattered wing.
The cross I bear is heavy, the wounds they run so deep,
But in the arms of true friends, a promise now to keep.

To Mary on a cross, to shoulder all the pain,
To rise above the darkness, and dance amidst the rain.
For though the road is winding, and loneliness may come,
With friends who truly see me, my heart is never numb.

Devanshi Mandhan, VIII- E

Until the last bell rings

The last year of our journey in school begins like memories do - softly and almost unnoticed. The perfect goodbye to our juniors, watching them grow with dreams stitched in their smiles. Leaving us with the ever-ending thought spiral of whether we will meet again. The months blur into tests, entrance exams, and pressure we never thought would come this fast. Some of us have everything planned but still feel lost, while others are still looking at career brochures, thinking that something might stick. In between all this chaos, we laugh harder with teachers and classmates, share jokes that somehow feel louder than they did before. We rush to the canteen like it's a marathon. Suddenly, it feels like we are making memories that will stay with us even after we leave. Because one day, we will walk away from this red brick place that we call our second home.

Future Career in the Gaming and Anime Industries

In today's digital era, the industry of gaming and anime is booming at a very fast pace, providing young people like me with promising career prospects. As I am extremely enthusiastic about both topics, I am keen to construct a future in this innovative sector. The level of gaming has transcended that of being a pastime; it is now a complete industry that has professions such as game designer, developer, animator, and pro gamer. Game designers apply creativity to create new worlds, whereas developers turn such concepts into reality using coding and technological innovation. E-sports tournaments have millions of spectators, and talented players can gain fame and compensation. Anime also has a global fan base. Anime careers vary from animation and voice acting to script writing and even translating anime for global audiences. Artists and writers can have the chance to entertain and inspire others across the world. With streaming websites on the rise, anime is now more accessible than ever, which makes it generate more demand for talented creators. I believe that through diligence, innovation, and ongoing education, I can make my passion for gaming and anime a successful career. I am eager to observe the advancement of technology and the development of storytelling and to be a part of this exciting industry in the future.

La Compétition de Roland-Garros

Roland-Garros est une grande compétition de tennis organisée chaque année en France, à Paris. Le compétition commence en mai et finit en juin. Cette année, la compétition commence le 19 mai et finit le 8 juin. Elle dure deux semaines. C'est très célèbre dans le monde. Les matchs sont sur terre battue rouge. Rafael Nadal est très fort ici. Il s'appelle aussi "le Roi de la Terre Battue". Les joueurs sont très athlétiques. Les fans sont très contents de regarder les matchs. Le compétition a des hommes et des femmes. Le stade est très grand et il y a beaucoup de courts. Tout le monde regarde. Roland-Garros est une grande fête du tennis. Les spectateurs encouragent leurs joueurs préférés. Les billets pour le compétition sont très chers. J'aime regarder Roland-Garros à la télévision.
