

SWACHH BHARAT ABHIYAN

Swachh Bharat Abhiyan also known as the Clean Indian mission was started by the prime minister of India, Shri Narendra Modi on 2nd October 2014. This date was chosen because it is the birthday of Mahatma Gandhi who always believed in cleanliness and hygiene. The main aim of the mission is to make India clean and free from open defecation, dirty streets and garbage. The government has built many toilets in the villages and cities so that the people do not have to go to the fields and roads, which have been placed in public places so that people can throw waste properly. Many awareness programs were started to teach people about the importance of cleanliness. Students, teachers, celebrities, and many common people have joined this movement. It is not only the duty of the government but also the responsibility of every citizen. Swachh Bharat Abhiyan teaches us that cleanliness is a habit, and we must follow it every day. Clean India will lead to a healthy India.
